# Evaluate Place Qualities of Waterfront and Users' Well-being:

A Comparative Study of East Coast Park Precinct and Kwun Tong Promenade

Wong Hiu Man Supervised by Dr. Wong Kwan Kit, Frankie

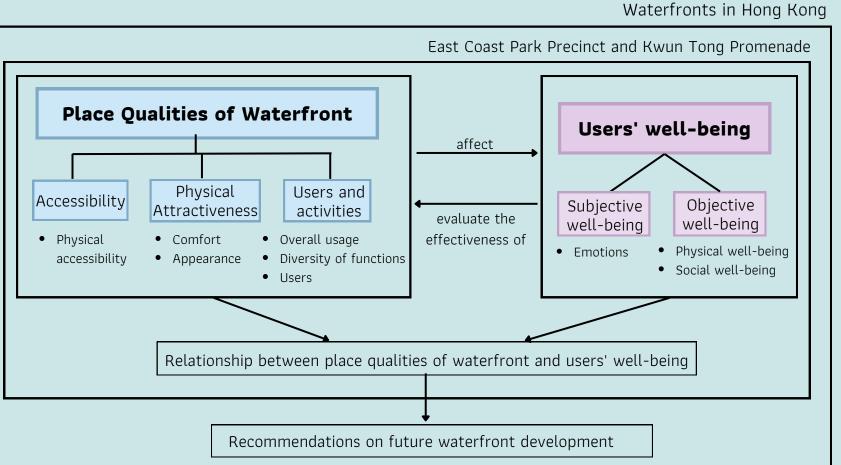

## **Research Background**

- Well-being of residents has long been a significant concern, and it should be the top priority for Hong Kong society
- Waterfronts have been recognized as valuable public assets that provide a leisure and recreational hub for local residents
- Various scholarly literature has demonstrated that waterfronts have a significant impact on users' well-being in both subjective and objective aspects
- It is necessary to assess the relationship between waterfronts' place qualities and users' well-being by evaluating a list of important place qualities

## Research Significance

- Fill the research gap of generating a comprehensive assessment framework of waterfront place qualities in the Hong Kong context
- Provide a reference for planners to enhance the design of future waterfronts and improve users' experience and well-being

## **Conceptural Framework**

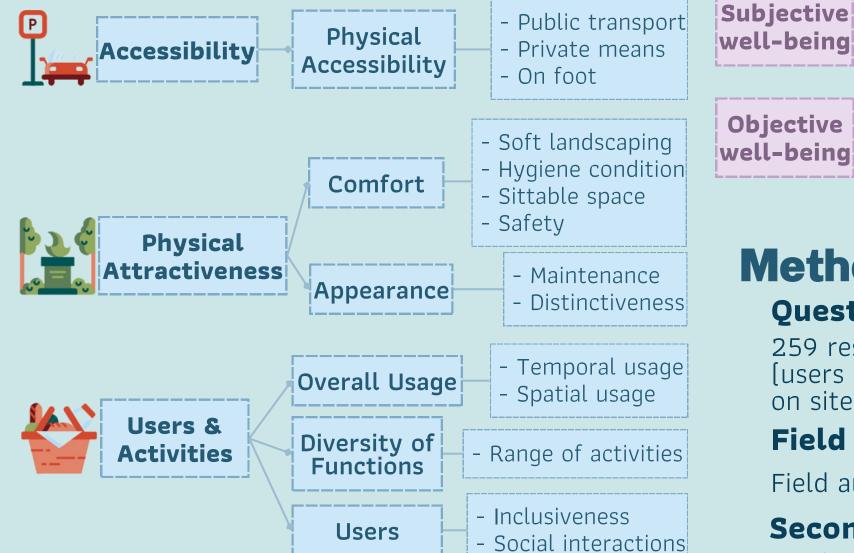

### **Research Objectives**

To evaluate the place qualities of waterfronts and relationship with users' well-being in East Coast Park **Precinct and Kwun Tong Promenade** 

- 1. To identify important place qualities of waterfront suitable for Hong Kong and formulate an assessment framework
- 2. To evaluate and compare the place qualities of the two waterfronts under the formulated assessment framework
- 3. To explore the levels of users' well-being of the two waterfronts
- 4. To investigate the factors of place qualities of the two waterfronts affecting users' well-being
- 5. To propose recommendations on future waterfront planning in Hong Kong

## Assessment Framework of **Waterfronts' Place Qualities**

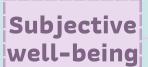

### **Research Questions**

What is the relationship between place qualities of waterfronts and the users' well-being in East Coast Park Precinct and Kwun Tong Promenade?

- 1. What are the important place qualities of the waterfronts in Hong Kong?
- 2. Is there any locational difference among the place qualities of the two waterfronts?
- 3. What are the levels of well-being among the users of the two waterfronts respectively?
- 4. How do the place qualities of waterfronts affect and correlate with the users' well-being in the two waterfronts respectively?
- 5. What place qualities should be considered in Hong Kong's future waterfront planning to enhance users' well-being?

## Assessment Framework of **Users' Well-being**

Objective

**Emotions** 

- Positive emotions - Negative emotions

Social well-being

- Regular contact - Quality time

Physical well-being

# Methodology

Questionnaire 259 responses [users of the 2 waterfronts] on site & social media

Field audit sheet, photo-taking

Academic journals, gov reports, websites

# ♦ ♦ ♦ Major Findings ♦ ♦ ♦ ♦

#### **Performance of Place Qualities**

Questionnaire respondents' ratings:

5: strongly agree 1: strongly disagree

	East Coast Park Precinct	Kwun Tong Promenade
Physical Accessibility	3.92	3.80
Information signage	3.32	3.29
Soft landscaping	2.53	3.24
Hygiene	3.75	3.48
Sittable spaces	3.58	3.76
Safety	3.75	3.58
Maintenance	3.79	3.26
Distinctiveness	3.90	3.44
Diversity of functions	3.86	3.84
Users	4.04	4.06
	Information signage  Soft landscaping Hygiene Sittable spaces Safety Maintenance Distinctiveness  Diversity of functions	Physical Accessibility Information signage  Soft landscaping Hygiene Sittable spaces Safety Maintenance Distinctiveness  Diversity of functions  Park Precinct 3.92 3.92 3.32  2.53 4.75 3.75 3.75 3.75 3.79 3.79 3.90

→ share similar results with field assessment

## Users' well-being

Relatively high in all 3 aspects

5: strongly agree 1: strongly disagree

**Spearman Correlation Analysis** 

Perceived safety & Subjective well-being

Amount of plants & Subjective well-being

Perceived safety & Subjective well-being

Users & activities & Subjective, physical well-being

**East Coast Kwun Tong** Park Precinct Promenade Subjective well-being 3.85 3.93 Social well-being 3.55 3.55 Physical well-being 3.82 3.80

Moderate correlation (0.4-0.6) could be found among the following attributes:

& Subjective, social, physical well-being

Users & activities & Subjective, social, physical well-being 0.561, 0.440, 0.423

Two attributes with lowest well-being levels:

★ broaden social circle [meet new friends]

encourage users to do more sports activities

**East Coast Park Precinct** 

**Kwun Tong Promenade** 

& Physical well-being

# ♦ ♦ ♦ ♦ 2 Significant Correlations with Users' Well-being ♦ ♦ ♦ ♦ ♦

### **Users & Activities**

Explanations of the correlation:

- 1. Gathering places for friends & family
- stimulate users' positive emotions
- develop close & intimate relationships receive social support & release stress
- levels

- motivate pet owners to do more physical activity • meet new friends with interest in pets
- facilitate casual conversation
- 3. Place for a wide range of activities to meet the diverse needs of users
- improve physical & mental health
- build a sense of achievement
- expand social network with others having common interest

### **Distinctiveness**

[Aesthetically well-designed waterfront]

Explanations of the correlation:

- 1. Landmarks representing local history and public design competitions
- foster users' sense of place
- preserve users' cultural identity • positive effects on emotions, mental health

- establish restorative environment speed up stress recovery and improve mental health
- 3. Increased inclusiveness of waterfronts & social interactions
  - attract more visitors from other districts & tourists
  - foster social connections with other users

# 

**Enhancing 'Users & Activities'** 

#### Create pet-friendly waterfronts

- Provide pet-related facilities: e.g. off-leash zones & bird perch
- Organize pet events & carnivals: e.g. workshops, market

#### Create culturally vibrant waterfronts

- Offer venues: e.g. stage, amphitheaters
- Organize cultural events: e.g. performances, exhibitions, students' work showcase

### More landmarks

## representing local history

- Place more landmarks, artifacts, public arts
- Representing the local history / cultural experiences
- Build collective memory

**Enhancing 'Distinctiveness'** 

More public involvement in planning and design Public engagement

- Involve public needs in
- waterfront planning • Organize public design competition

Distinctiveness

Distinctiveness

Location

& Subjective, physical well-being

All 3 aspects of well-being (subjective, social, physical)
